

Approve SAR 40M for four regions to close the last gap to 65% digital adoption

Big idea Tayseer has met the 65% target nationally, but four regions are stuck below it. Putting the full SAR 40M there brings all four to 65% by Dec 2026 instead of as late as 2027.

Najran

SAR 15M

60.9% today · gap 4.1 pts
21 months to reach 65% on
current pace

Northern Borders

SAR 9M

62.7% today · gap 2.3 pts
10 months to reach 65% on
current pace

Al-Baha

SAR 8M

62.8% today · gap 2.2 pts
9 months to reach 65% on
current pace

Jazan

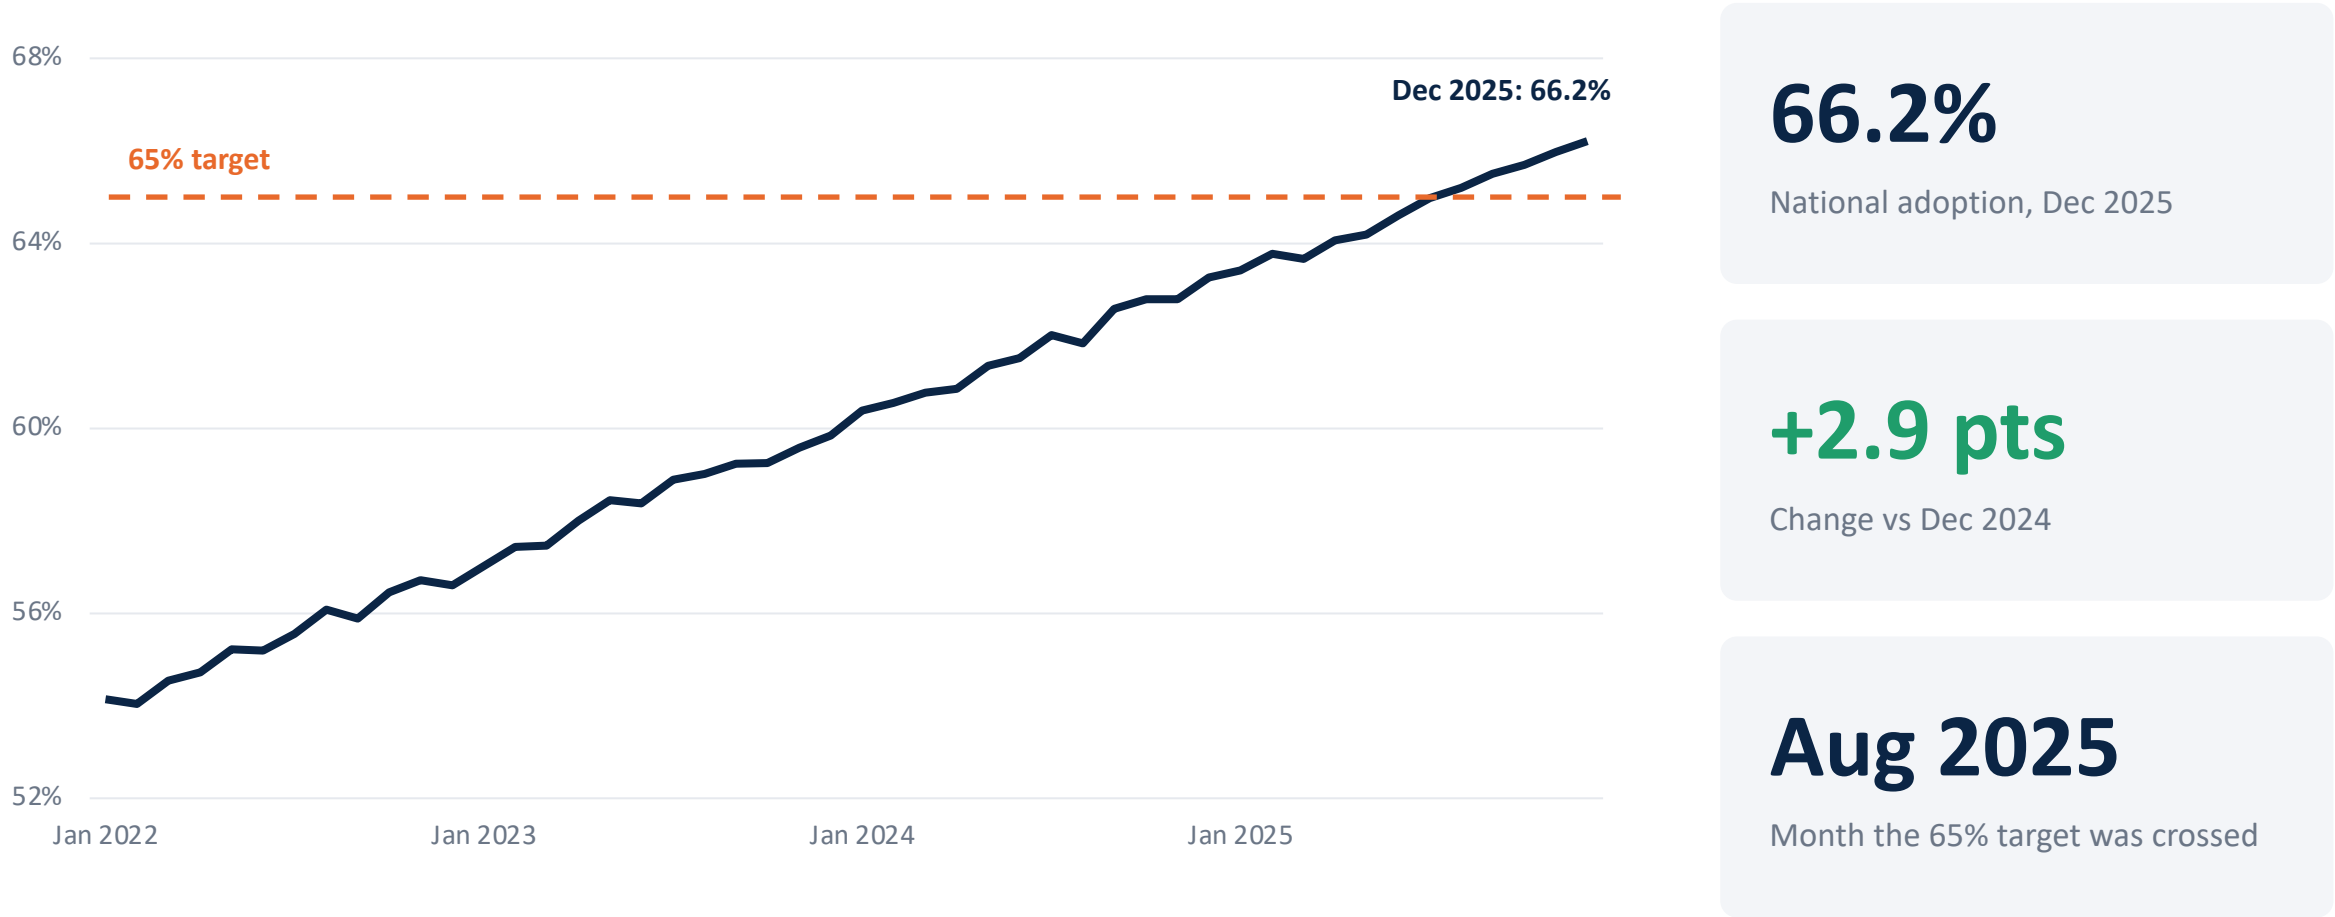

SAR 8M

63.0% today · gap 2.0 pts
7 months to reach 65% on
current pace

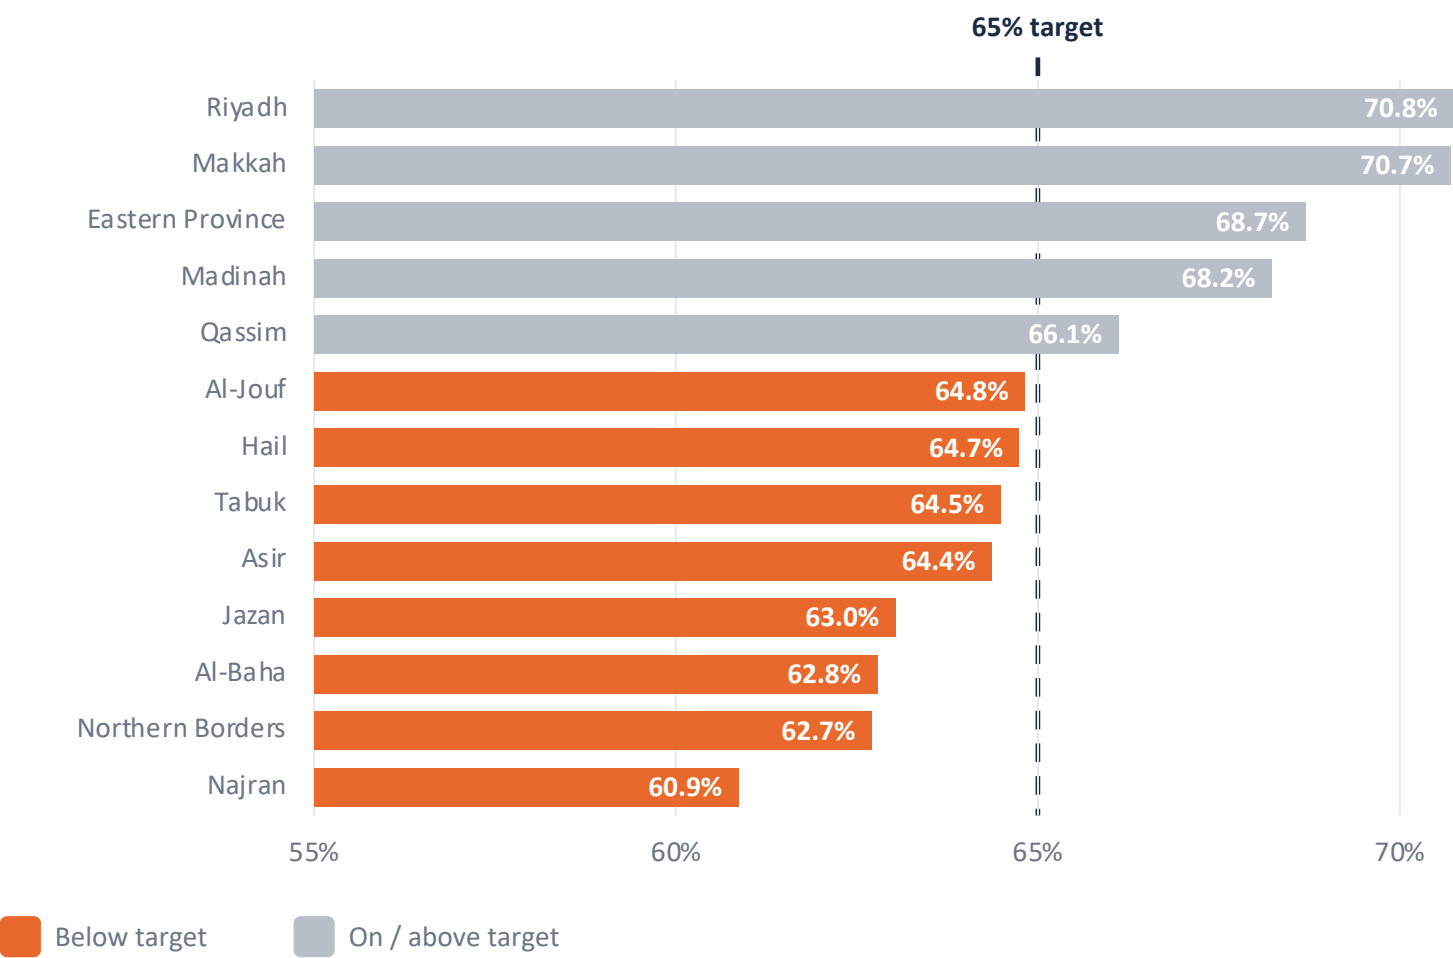

Release SAR 20M now · SAR 20M after a June 2026 checkpoint

Yousef Almutairi · Abdulwahab Alnassar · Firas Alnasser

Nationally, Tayseer is on track: 66.2% digital adoption, above the 65% target since August 2025

But 8 of 13 regions are still below 65%, and the national average hides them

8 regions

below the 65% target in Dec 2025

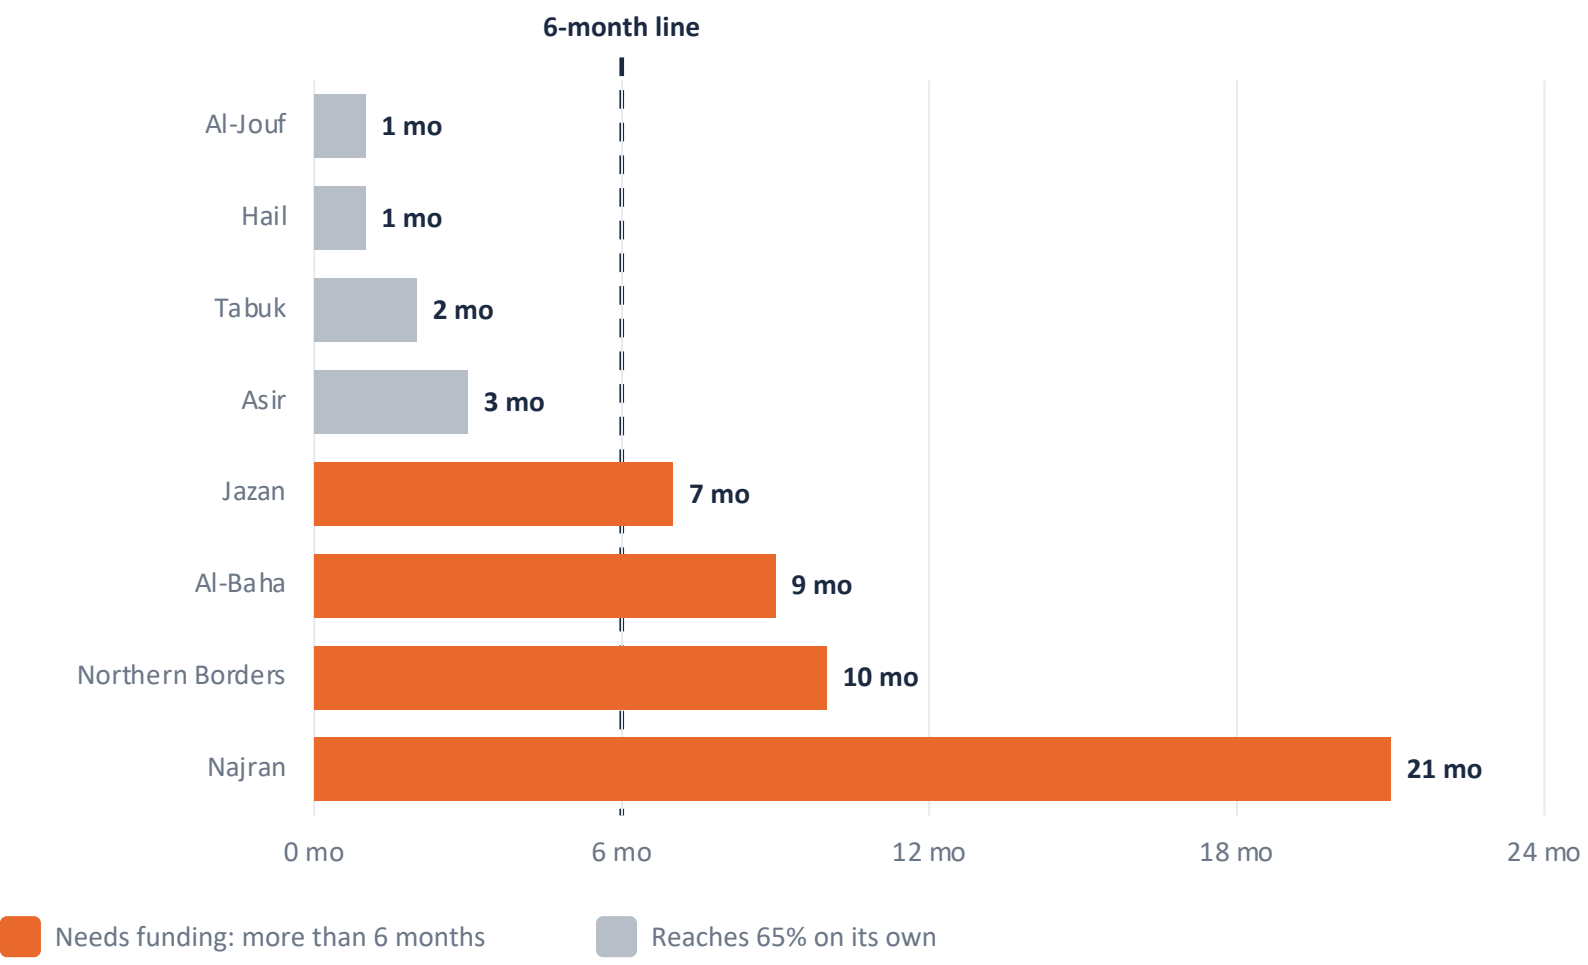

60.9%

Najran, the lowest region, 4.1 pts short

5 regions

large regions carry the national average

Four regions will reach 65% on their own within 3 months; four will not, and Najran needs 21

Where the gap sits

56.8%

Complaints digital adoption in the four priority regions, vs 62.1% nationally

+0.19 pts / month

Najran's pace: the slowest of any region, with the biggest gap

We compared three ways to spend SAR 40M; only one aims every riyal at a gap that won't close by itself

A

Spread evenly

SAR 5M to each of the 8 regions below 65%

- ✗ Half the budget (SAR 20M) goes to regions closing in ≤ 3 months
- ✗ Najran gets only SAR 5M
- ✗ Too thin to change pace anywhere

B

RECOMMENDED

Focus on the 4 laggards

SAR 40M split across Najran, Northern Borders, Al-Baha, Jazan by gap size

- ✓ 100% of the budget reaches regions needing 7–21 months
- ✓ Najran gets SAR 15M, sized to its gap
- ! Depends on local delivery, so staged with a checkpoint

C

National campaign

One national push to move branch & call-centre users to app / web

- ✗ National is already 66%; reach lands in on-target regions
- ✗ Lifts the average again, leaves the gaps
- ✓ Simple to run

Weight the SAR 40M by gap size and bring all four regions to 65% by December 2026

- Najran SAR 15M
- Northern Borders SAR 9M
- Al-Baha SAR 8M
- Jazan SAR 8M

What the money buys

- 1** Digitise the weakest journeys
Complaints and Permits first
- 2** Assisted-digital desks in branches
Branch adoption 53% vs app 75%
- 3** Local awareness & onboarding
Targeted at the four regions

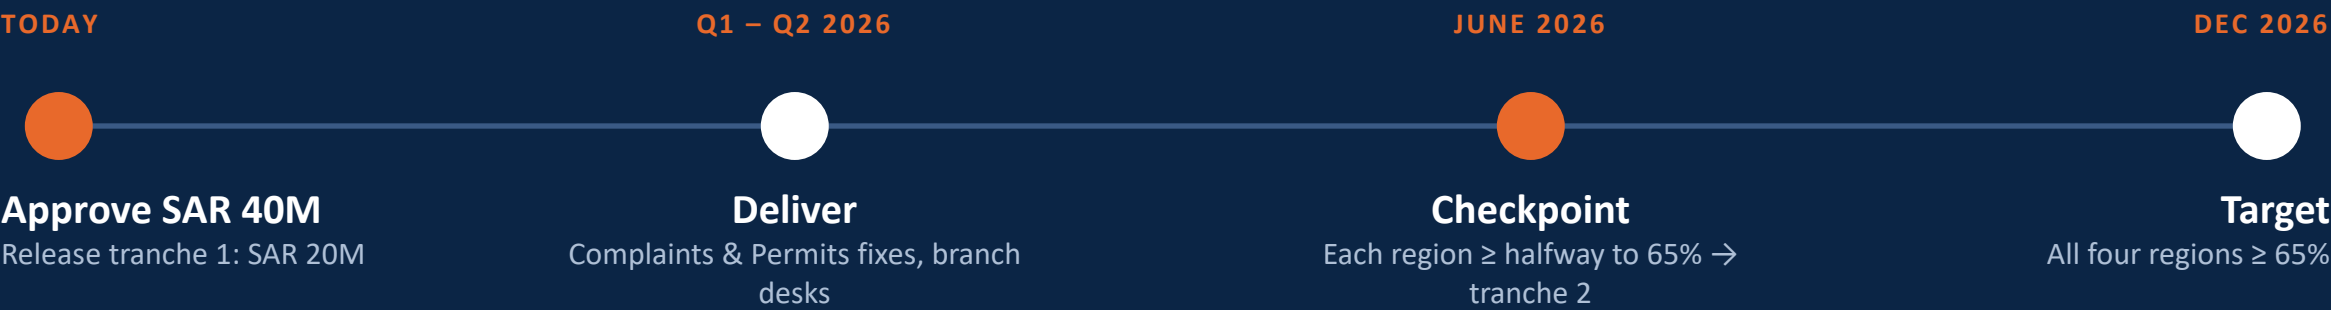

EXPECTED EFFECT

Dec 2026
all four regions ≥ 65%

Sep 2027
Najran at today's pace

0.19 → 0.34
Najran pts / month needed

Approve SAR 40M today, released in two tranches with a June 2026 checkpoint

June 2026 checkpoint: halfway to 65%

Region	Dec 2025	Must reach by Jun 2026	Tranche 2
Najran	60.9%	≥ 62.9%	SAR 7.5M
Northern Borders	62.7%	≥ 63.9%	SAR 4.5M
Al-Baha	62.8%	≥ 63.9%	SAR 4.0M
Jazan	63.0%	≥ 64.0%	SAR 4.0M

Decision today

Approve SAR 40M

Nationally we hit 65%. This makes sure every region does.
